Muses Publishing House - Website Requirements

Basically we want an online bookstore which that doing purchase our own publishing books & some other publisher's books also.

Design

We look for a

- > more attractive
- > User friendly
- > Eye catching &
- Uncommon website.

Similar online bookstores in sri lanka are

www.kbooks.lk www.grantha.lk www.bookrack.lk

And importantly the **user friendliness** in this website is a must. Because our main customer targets are not only the people who have more computer literacy, but also who haven't contact with online stores before.

So we want a Unicode site. Also the web must be **mobile responsiveness**.

1. Front end pages functionalities

- 1.1 We want main pages like as below.
 - **HOMEPAGE**
 - **➤** BOOKS -> Book Categories
 - > AUTHORS
 - > PUBLISHERS -> Local / Foriegn
 - > ABOUT US
 - > SERVICES
 - > NEWS

Contact Us Payment Information Delivery Information Privacy Policy 1.2 We want a Backend CMS for handle all the things in front area.

Content of pages like

About us,

Services.

Payment Information,

Delivery Information,

Privacy Policy,

can be changed from backend as our needs.

1.3 As normal book store we want book areas in home page as follows

Coming Soon

New release

Award Winning .

If no any books for that tabs, those tabs must be hidden.

- 1.4 We wish to add Facebook page chat & online help chat to connect with the web.
- 1.5 Home page banners can be changed as our own choice. So facilitate it form backend to upload us certain resolution & size images.
- 1.6 Search area is a key point of that site. We must facilitate to search from both Unicode & English. Also add auto filling when typing.
- 1.7 Also want a small area for financial advertisement & those advertisements not to be obstacle to users who visiting to website.

2. Main process in book adding from backend

2.1 Common fields we want when adding a book as follows

Name of the book

Book Category

Pre order/ Normal Sale

Author

Publisher

> Weight

➤ ISBN No

Price

Discount

Language

No of pages

Sample pages

Description

Quantity of books

- 2.2 Each & every book may be under one or more categories.
- 2.3 We are also doing pre orders for books.

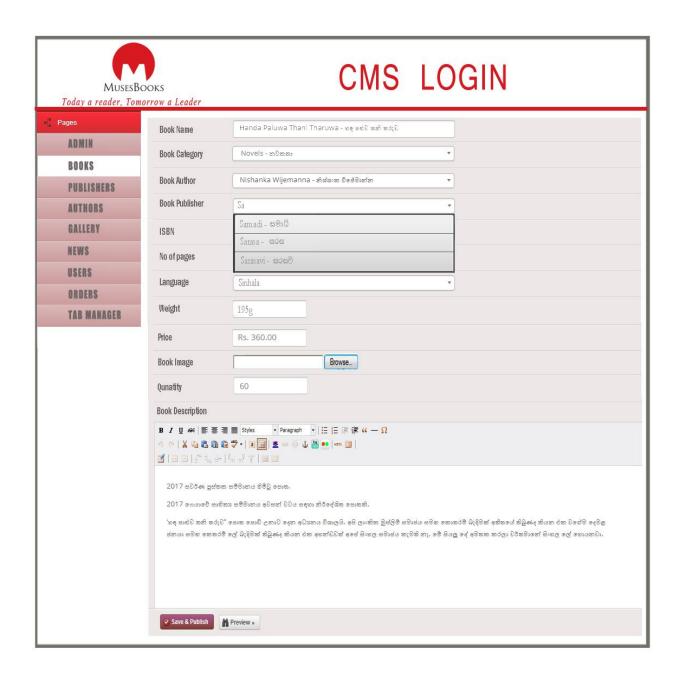

In that process we want two options to select whether it is a pre order or normal sale when adding books. If we select pre order from there calendar must be pop up to put a date. We only taking pre orders until on that date & after that date pre order books automatically have to be turn into a normal sales book.

- 2.4 We gave discount to some chosen books. After adding price & discount amount, sale price must be calculate automatically. In frontend we want to display discount amount in books as a percentage.
- 2.5 In same book we printed different qualities as follows.

Ex: Normal binding
Hard Cover
Paper back.

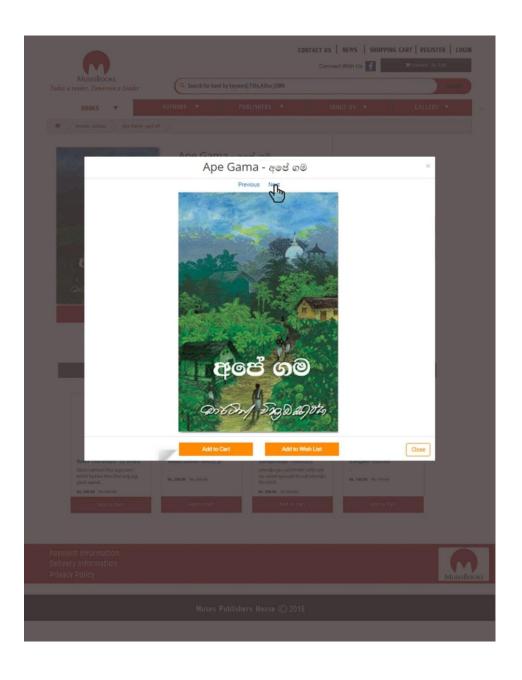

Those different types have different sales price. So when adding books please consider that point & do a proper thing to categories those.

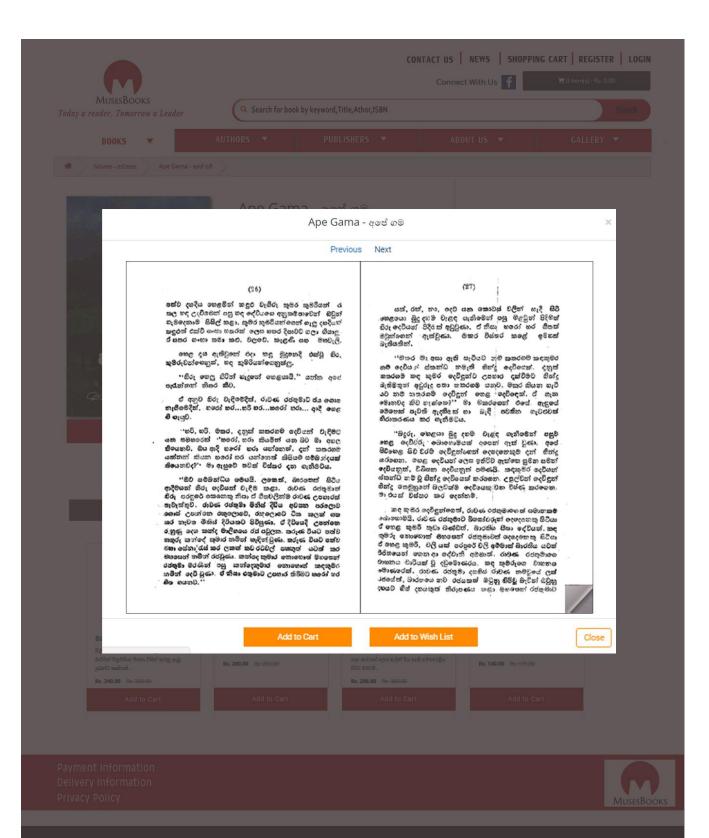

(Some sketch template have attached with this document only for give a rough idea. We want templates more attractive than those.)

- 2.6 We are giving sample pages to read for users. Not or every books. So give some area to upload pages to us. And after uploading it our water marks must appear on it.
- 2.7 The books which are uploaded sample reading pages must have a button as "sample read" in frontend.

Sample reading view in front end

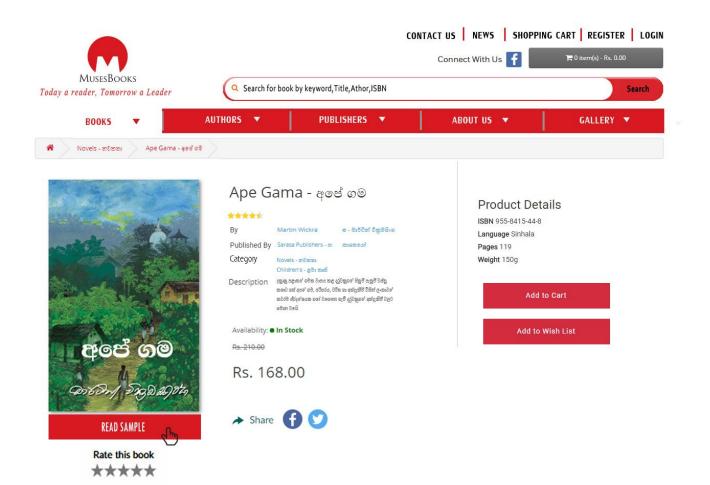

3. Book display in Front end

- 3.1 Book Categories have to display in main menu of home page.
- 3.2 We want a separate area to display pre order books in homepage like online order area in pizzahut website. That area must be catching the user's eyes first when entering to website.
- 3.3 Each & every books discounted amount also must be displayed with the books.
- 3.4 Each month highest sales books also display in an area in home page as "BEST SELLING BOOK OF MONTH" according to sales rates.
- 3.5 The users who are logging to the website can give there rating to books. Also can adding comments. But those reviews display in front after admin's have approved.
- 3.6 The books which are not in stock also must display in front. Those are cannot purchased. But we must facilitate to received a message or something from users who are interesting that kind of books and after fulfilled the stock of that books email will goes to that users.

OTHER BOOKS BY THIS AUTHOR - කතහෝ වෙනත් කෘති

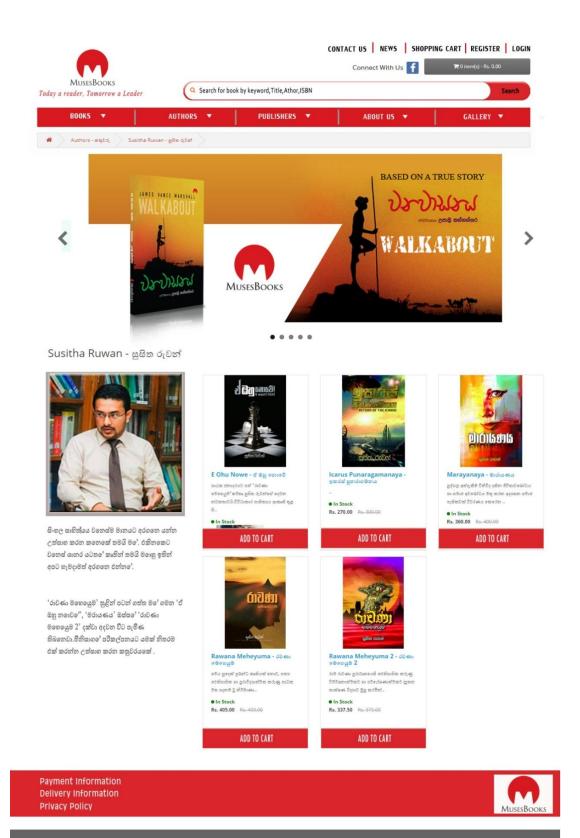

Payment Information Delivery Information Privacy Policy

4. Authors Page

Authors list in to alphabetical order. Registered users can add reviews to authors also. Those are also will display after admin approve.

5. User Management Area

- 5.1 Users of site must register to purchase books.
- 5.2 When collecting details we must give area to fill which is the nearest town to them. List has to be displayed in dropdown.
- 5.3 The users of the website want a user login & user management area also. Everything about their orders has to put there. They can edit their personal information when they want. Users only can purchase books after registration on this site.
- 5.4 We also want a shopping cart & have facilitates to add books to wish-list also.
- 5.5 Books which are adding to wish-list will be removing after certain period after sending mail to those users.
- 5.6 When adding an order user can edit before checkout it.
- 5.7 When user tries to checkout order without logging or if he/she is a new costumer, automatically redirect to them to log in or registration area as first step of checkout.
- 5.8 Order checkout process must be very user friendly & easy process to users. Below areas must display to them step by step.

Step 1: Account & Billing Details

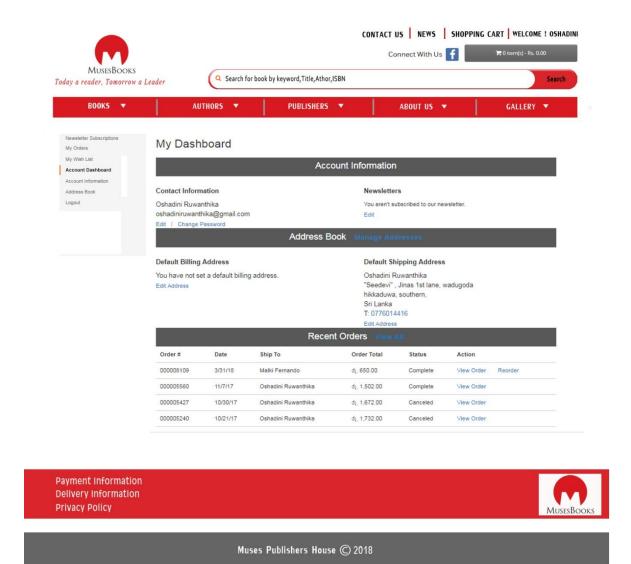

Step 2: Delivery Details

Step 3: Delivery Method

Step 4: Payment Method

Step 5: Confirm Order

5.9 Users order status must display in backend and in users management area also as **confirmed, ready** to delivery & delivered.

6.Delivery Methods & Cost of delivery

6.1 Postal delivery

If select postal delivery, overall weight of full order have to be calculate. And postal cost as below.

80 (gr8 - w)	ගන්තුව රු.
0 < W ≤ 250	90.00
250 KW 4.500	110-00
500 < W ≤ 1000	130.00
1000 < W ≤ 1500	150.00
1500 < W ≤ 2000	200.00
2000 < W ≤ 2500	250.00
2500 < W ≤ 3000	300.00
3000 < W ≤ 4000	350.00
4000 < W ≤ 5000	450.00
5000 < W ≤ 6000	550.00
6000 <w 7000<="" td="" ≤=""><td>650.00</td></w>	650.00
7000 < W ≤ 8000	750.00
8000 < W ≤ 9000	850.00
9000 < W ≤ 10000	950.00
10000 < W ≤ 11000	1,050.00
11000 < W ≤ 12000	1,150.00
2000 < W ≤ 13000	1,250,00
3000 < W ≤ 14000	1,350.00
4000 < W ≤ 15000	1,450.00
5000 < W ≤ 16000	1,550.00
6000 < W ≤ 17000	1,650.00
7000 < W ≤ 18000	1,750.00
000 < W ≤ 19000	1,850.00
000 < W ≤ 20000	1,950.00

6.2 Via currier service

The cost for delivery services calculate as follows. They consider the nearest towns to evaluate the cost. And that cost only for orders which below 1kg.Additional each kilogram cost 50 rupees extra.

කොළම	200.00	
<u>ගාල්ල</u>	300.00	
ගම්පත	300.00	
කළුතර	300.00	
මහනුවර	300.00	
<u>කළුතර</u>	300.00	
<u>මහනුවර</u>	300.00	
කාගල්ල	300.00	
ಪ್ರಾರ್ಥೆ ಕ್ಯೂಬ್ರ್	300.00	

රත්නපුර	300.00	
අනුරාධපුර	350.00	
බදුල්ල	350.00	
මඩකලපුව	350.00	
හම්බන්තොට	350.00	
යාපනය	350.00	
කිලිනොවව	350.00	
මන්නාරම	350.00	
වාතලේ	350.00	
මාතර	350.00	
<u>මේාණරාගල</u>	350.00	
මුලකිව	350.00	
<u>නුවරඑළිය</u>	350.00	
<u>පොළොන්නරුව</u>	350.00	
<u>පූත්තලම</u>	350.00	
නිකණාමලය	350.00	
වඩුනියාව	350.00	

7.Payment methods

- > Pay here
- > Cash on delivery
- Bank Deposites
- > Eazy cash

8. Contact Page

Contact page must have a submit form. The users who are not registered also can submit it after entering email & contact.

9. Gallery Page

Images can add as albums. Album must have a title.

YouTube videos also can display in this page.

10.Content for the site back-end

Basically Admin backend panel must be user friendly & there functionalities have not to be complicated. Because sometimes may be in the future we will hire people to handle website. So the site backend make as simple as possible. Also we have to get a summarizing about sales & everything from there as reports.

- 10.1 Only admin have full authority to CMS Admin panel in backend.
- 10.2 Admin can assigned certain area logging facilitate to more than one people separately.
- 10.3 Those others can't delete any details in backend. Only they have power to add & edit. Details on site only can delete by admin. Admin can assign password to their accounts & he must have a facility to see the logging history of them. After certain period, logging history must be automatically deleted.
- 10.4 Stock management, order delivery status also handle in backend admin panel. Also generate graphs or needed areas.
- 10.5 In orders area we want to generate a PDF from selected orders. That may include delivering address & details which wants to put into parcels.

The site's security must be in higher stand. When considering the search engine optimization we want to promote that site to all the booklovers.

Mainly we want those requirements. According to our needs add more anything as appropriately.
